Remarks: 1. School-fees, entrance-fees, official examination fees, commissions, etc. of the prefectural schools are not to be counted as the receipts of schools, but as the revenue of the prefectural government concerned. But, here they are regarded as the receipts of the said schools in order to make clear the state of management by the kind of schools. This explanation shall be applied to other tables. In some cases of old secondary schools and new lower secondary schools established within them of prefectures, these schools expenses cannot be divided from each other. Therefore, the present school expenses survey was conducted as the school expenses of the former schools.

Remarks: Judging from the conditions of youth schools, it is somewhat difficult to survey the school expenses in 1947. Therefore, such school expenses in this issue may not indicate the total amount of all youth schools. Numbers headed with the mark × indicate the expenses of metropolitan youth schools
